THE

ANATOMY OF THE ARTERIES

OF

THE HUMAN BODY:

WITH ITS

APPLICATIONS TO PATHOLOGY AND OPERATIVE SURGERY.

IN

LITHOGRAPHIC DRAWINGS,

WITH PRACTICAL COMMENTARIES.

BY RICHARD QUAIN, F.R.S.

PROFESSOR OF ANATOMY IN UNIVERSITY COLLEGE, LONDON, AND SURGEON TO UNIVERSITY COLLEGE HOSPITAL.

THE DELINEATIONS FROM NATURE AND ON STONE,

BY JOSEPH MACLISE, ESQ., SURGEON.

IN TWO VOLUMES, WITH AN OCTAVO VOLUME OF LETTER-PRESS.

VOLUME THE SECOND.

LONDON:
PRINTED FOR TAYLOR AND WALTON,
BOOKSELLERS AND PUBLISHERS TO UNIVERSITY COLLEGE.
UPPER GOWER STREET.
MDCCCXLIV.

WELLCOME
LIBRARY
INSTITUTE

20637
10.

CONTENTS OF THE PLATES IN THE SECOND VOLUME.

PLATE XXXVI.

Figs. 1 & 2. Rare deviations of the Ulnar artery.
Figs. 3 & 4. Peculiarities of the Brachial artery.

PLATE XXXVII.

Figs. 1 & 2. Deviations of one of the two arteries representing the brachial. All the figures illustrate peculiarities of the muscles in the neighbourhood of the same artery.

PLATE XXXVIII.

Views of the Anterior arteries of the fore-arm and hand:—their usual arrangement.

PLATE XXXIX.

The deep arteries on the anterior surface of the fore-arm and hand:—their usual conformation.

PLATE XL.

Fig. 1. The Arteries on the back part of the fore-arm and hand.
Fig. 2. The Superficial veins and nerves in front of the elbow joint, and a small part of the deep vessels and nerves.

PLATE XLI.

Views of the Superficial veins in front of the elbow joint, in connexion with several variations of the arteries.

PLATE XLII.

Figs. 1 & 2. The Arterial Branches anastomosing about the elbow joint.
Figs. 3, 4, & 5. Peculiarities of the Radial artery.

PLATE XLIII.

Peculiar forms of the Radial, Ulnar, and Interosseous arteries in the fore-arm and hand.

PLATE XLIV.

The Interosseous joins in different cases with the other two arteries of the fore-arm, and compensates for their small size.

PLATE XLV.

Fig. 1. A rare form of Median artery.
Fig. 2. A peculiar muscle connected with the Ulnar artery.
Figs. 3 to 6. Various states of the Superficial volar and Palmar arteries.

PLATE XLVI.

Various conditions of the arteries of the hand.

PLATE XLVII.

The Thoracic aorta and the Intercostal arteries, with the Intercostal veins, Vena Azygos, the Thoracic duct, &c., seen in connexion with the parietes of the thorax.

PLATE XLVIII.

The entire of the Aorta, with the branches springing from it. The Heart and the Vessels connected with it. The Coronary arteries.

PLATE XLIX.

The Abdomen opened, and the Cæliac axis with its branches, viz., Coronary (of Stomach), Hepatic, and Splenic.

PLATE L.

Fig. 1. The branches of the Cæliac axis more fully displayed.
Figs. 2 & 3. Some branches of the Superior and the Inferior Mesenteric arteries:—to show their arrangement as they approach the intestine.

PLATE LI.

The Superior Mesenteric artery and its branches.

PLATE LII.

The Inferior Mesenteric artery and its branches.

PLATE LIII.

The Abdominal Aorta and the branches arising in its course. The Iliac arteries.

PLATE LIV.

The Abdominal Aorta. Some of its branches more fully displayed than in the preceding plate.

PLATE LV.

The Iliac arteries in connexion with the veins.

PLATE LVI.

Peculiarities of the Abdominal Aorta, and of some of its branches.

PLATE LVII.

Peculiarities of some of the branches of the Abdominal Aorta, and of the Iliac arteries.

PLATE LVIII.

Fig. 1. Unusual conformation of the Iliac arteries.
Figs. 2 to 10. Examples of peculiar dispositions of the large Veins of the Abdomen and Thorax.

PLATE LIX.

The Arteries distributed to the female Pelvic organs.

PLATE LX.

The Arteries of the Pelvis of the male.

PLATE LXI.

A view of the Arteries and other structures displayed in a superficial dissection of the Perineum.

PLATE LXII.

A deeper dissection of the Perineum. The Pudic artery and the artery of the Bulb are shown.

PLATE LXIII.

Fig. 1. The Uterine and Ovarian branches.
Fig. 2. The Pudic artery, and the branches of the Pelvic Viscera of the male fully dissected out.
Figs. 3, 4, & 5. Peculiar forms of the Pudic branches.

PLATE LXIV.

Various forms of the Pudic branches seen in the Perineum.

PLATE LXV.

Fig. 1. A peculiarity of one of the Pudic branches.
Figs. 2 & 3. Enlarged veins of the Prostate Gland and Urinary Bladder.
Figs. 4 to 7. Variations of the branches taking rise from the External Iliac and Internal Iliac arteries.

PLATE LXVI.

Figs. 1, 2, & 3. Various conditions of the Obturator artery.
Fig. 4. The Epigastric in connexion with a hernia.

PLATE LXVII.

The position of the Epigastric artery with reference to different kinds of hernia illustrated.

PLATE LXVIII.

The various relations of the Obturator artery to different kinds of hernia.

PLATE LXIX.

The Femoral artery, and its branches.

PLATE LXX.

A view of the Femoral artery, with the veins, nerves, and fascia.

PLATE LXXI.

Fig. 1. The Femoral artery, with nerves and veins more fully shown.
Fig. 2. Double Femoral artery.

PLATE LXXII.

Figs. 1 & 2. Are supplemental to a former Plate, giving additional illustration of the peculiarities of the Epigastric artery, and of the position of the Obturator in reference to crural hernia.
Figs. 3 to 6. Various forms of the Deep Femoral artery.

PLATE LXXIII.

Peculiarities of the branches of the Deep Femoral, especially of the External Circumflex.

PLATE LXXIV.

The branches of the Deep Femoral further illustrated, and especially the Internal Circumflex.

PLATE LXXV.

Various forms of the Veins connected with the Femoral artery.

PLATE LXXVI.

The Arteries on the posterior surface of the Pelvis.

PLATE LXXVII.

The Arteries on the Pelvis more completely exposed than in the foregoing Plate; together with the termination of the internal Circumflex and perforating branches. The Popliteal artery—its upper part.

PLATE LXXVIII.

Fig. 1. The Artery, with the veins and nerves of the Popliteal space.
Figs. 2 & 3. Different views of the Popliteal artery in its whole length, and the branches.

PLATE LXXIX.

The Popliteal artery, and its peculiarities.

PLATE LXXX.

Various arrangements of the veins and the muscles connected with the Popliteal artery.

PLATE LXXXI.

Views of the Arteries on the back part of the leg:—Popliteal, Posterior, Tibial, and Peroneal.

PLATE LXXXII.

The Anterior Tibial artery.

PLATE LXXXIII.

Fig. 1. Part of the Posterior Tibial, with the veins, nerve, and fascia—exposed without removing any muscle.
Fig. 2. The Peroneal artery.
Fig. 3. The Dorsal artery of the foot.

PLATE LXXXIV.

The Dorsal artery of the Foot; and some peculiarities of the Posterior Tibial and Peroneal.

PLATE LXXXV.

Fig. 1. Unusual conformation of the Muscle over the Posterior Tibial.
Figs. 2 to 5. Different forms of the Anterior Tibial and Dorsal artery of the foot.

PLATE LXXXVI.

The Plantar arteries:—their usual arrangement and some deviations from it.

PLATE LXXXVII.

The ordinary disposition of the arteries of the Brain and Spinal Cord; and some peculiarities of the former.
